

ALTERNATIVE TELECOMMUNICATIONS SOLUTIONS

Fibergrate Composite Structures Inc. has 50+ years of experience in engineering, designing, manufacturing and fabrication of GRP structural composites. This wealth of experience enables Fibergrate to provide telecommunications customers with the most cost-effective composite solutions for their projects.

The RF transparent and lightweight features of Fibergrate's products make them ideal for virtually all telecommunications projects at prices comparable to galvanized steel or aluminium. Some of the areas for which Fibergrate has provided custom telecommunications solutions include:

Antenna Concealment

- Penthouses
- Parapets
- Architectural features and finishes
- Clock towers/tower extensions
- Bell towers
- Steeples
- Silos
- Chimneys
- Stacks

Antenna Support Structures

- 1 - 4 Sector framing
- Ballasted skirts or hard-mounted framework

Faux Rooftop Stacks

- Complete with skid and antenna mounting post
- 1 - 3 Sector designs
- 457.2mm to 914.4mm diameter
- Cone or plain top

Ice Shields

- Protects tower mounted telecom, broadcast and microwave antennae from falling ice
- High impact resistance

Equipment Platforms

- Fibergrate can design and fabricate custom GRP equipment and access platforms for even the most difficult applications

Fibergrate Products & Services

Fibergrate® Moulded Grating

Fibergrate® moulded gratings are designed to provide the ultimate in reliable performance, even in the most demanding conditions. Fibergrate offers the widest selection in the market with multiple resins and more than twenty grating configurations available in many panel sizes and surfaces.

Safe-T-Span® Pultruded Industrial & Pedestrian Gratings

Combining corrosion resistance, long-life and low maintenance, Safe-T-Span® provides unidirectional strength for industrial and pedestrian pultruded grating applications.

Dynaform® Structural Shapes

Fibergrate offers a wide range of standard Dynaform® pultruded structural profiles for industrial and commercial use, including I-beams, wide flange beams, round and square tubes, bars, rods, channels, leg angles, and plate.

Dynarail® & DynaRound™ Guardrail, Handrail & Ladders

Easily assembled from durable components or engineered and prefabricated to your specifications, Dynarail® square tube and DynaRound™ round tube railing systems, and Dynarail® safety ladder systems meet or exceed OSHA and strict building code requirements for safety and design.

Custom Composite Solutions

Combining Fibergrate's design, manufacturing and fabrication services allows Fibergrate to offer custom composite solutions to meet our client's specific requirements. Either through unique pultruded profiles or custom open moulding, Fibergrate can help bring your vision to reality.

Design & Fabrication Services

Combining engineering expertise with an understanding of fibreglass applications, Fibergrate provides turnkey design and fabrication of fibreglass structures, including platforms, catwalks, stairways, railings, and equipment support structures.

Worldwide Sales & Distribution Network

Whether a customer requires a platform in a mine in South Africa to grating on an oil rig in the North Sea, or walkways in a Wisconsin cheese plant to railings at a water treatment facility in Brazil; Fibergrate has sales and service locations throughout the world to meet the needs and exceed the expectations of any customer.
